WORKBOOK

THE WHOLE WORLD OF WATERSPORTS

LEADING THE MARKET SINCE 1969!

CAMARO is the only full-range supplier for all kinds of water sports. Based on our long-term experience and know-how we are able to offer you this wide range of outfits as no other neoprene producer does.

MATERIALS

Titanium and Blacktec – to name a few – developed in our own production site in Austria, are materials you only get from CAMARO and which are unbeatable when it comes to functionality and comfort.

INNOVATION

Always looking for new challenges, we strive to understand and anticipate the changing demands of our customers as well as the sport. To compete and succeed on local as well as international markets is one of our assets.

From the first pioneering models almost 50 years ago, to ground breaking innovations as the Semi Dry Diving suits, we have been setting standards on the international market as no other brand. Traditional values and the enthusiasm for new developments are our challenge.

PRODUCTION

From the first concept and prototype to maturity for series production we manufacture water sports suits and gear at our own production site in Austria. Without our customers we would be nothing! In daily contact with them we come to understand their needs, so we can continuously improve our products to offer maximum performance.

Being based in Austria guarantees our flexibility which sets us apart from our competitors.

DRY DIVING

THE INGENUOUS DRY-DIVING SUITS – MADE BY CAMARO

Our dry-diving suits offer multiple outfitting features and options but all have one thing in common: the easy self-entry, ingenious materials and clever details as for example the T-anchor zip which is easy to handle - even wearing thick gloves.

„Camaro offers with the “Protec” an all-laminate suit in top-end quality.“

TAUCHEN Magazine Issue 9/2014 [direct link \(PDF, german\)](#)

„Great material mix and perfect workmanship throughout. Regarding the „Arctec 2.0“, quality without compromises!“
